Dear Hiring Manager,

I am writing to express my interest in opportunities within your organization for Software Development, Java Development, or Full-Stack Development roles.

I am currently pursuing an Integrated B.Tech & M.Tech in Computer Science & Engineering at Gautam Buddha University and have built a strong foundation in software development through academic projects, internship experience, and continuous learning. My technical expertise includes Java, Spring Boot, React.js, Node.js, MySQL, PostgreSQL, RESTful APIs, and object-oriented programming principles.

During my internship as a Java Developer at CodeVeda, I designed and developed Java applications using Core Java and the Collections Framework while following clean coding practices and collaborating through Git and GitHub workflows. In addition, I have contributed to a production-level College Website Development System, where I worked on backend API development, CRUD operations, and database-driven modules using Node.js and PostgreSQL.

My project experience includes developing a Real-Time Chat Application using Socket.IO, a Weather Application using React.js and OpenWeather API, and a Scientific Calculator using Java Swing. These projects strengthened my problem-solving abilities, technical skills, and understanding of end-to-end software development.

I am also an Oracle Certified AI Foundations Associate and Oracle Certified Generative AI Professional, which has broadened my understanding of emerging technologies, AI-powered tools, and automation workflows.

I am eager to contribute my technical knowledge, enthusiasm for learning, and dedication to building high-quality software solutions. I would welcome the opportunity to discuss how my skills and experiences can contribute to your team and organization.

Thank you for your time and consideration. I look forward to the possibility of speaking with you further.

Sincerely,

Aditya Kumar
